

Welcome

Welcome to another edition of the HinterWelt Enterprises newsletter! Thanksgiving is fast approaching, however, the writing staff is already deep into the Christmas spirit, much to the chagrin of the editing staff. So, while Bing Crosby dreams about a white Christmas in the background, I'll continue with this monthly update.

What's New

Nebuleon, our Sci-Fi setting, is slowly coming up to speed. The proofs have come back from the printer and we've given them the OK to start the presses. Look for this 240 page hard back core rules to be in stores in December – just in time for Christmas, White or otherwise. ISBN: 0-9740096-4-4 MSRP: \$35

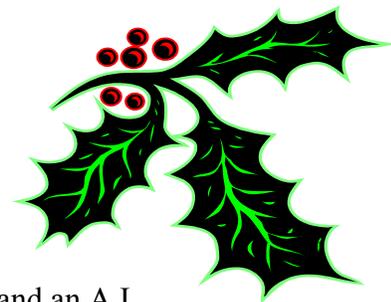

The merry writing staff has just about completed Back in the Corps, our first supplement for Nebuleon. This whopping 80 page supplement details life in the Andromedaen Marine Corps, something like the French Foreign Legion on hyper-space steroids. The adventure centers on a distress call from a research vessel, where scientists have been playing god with genetics. Soft cover, \$17.95, and bursting with new classes, equipment, and templates, Back in the Corps is sure to please. ISBN: 0-9740096-5-2

HinterWelt has been doing more than writing books and singing Christmas carols. We celebrated the grand opening of Village Games in Anoka, MN, with a rousing session of Shades of Earth, specifically the House of Vega supplement. It was a Halloween event, and all the characters died, much to the glee of the GM (it's no coincidence he's the carol-singing maverick!). A representative was in Madison, WI for ACD's game day. And finally, we have a new store to highlight. James from the Traveling Mage in Florida has picked up our products; stop by 2407 SW 13th ST Gainesville Florida 32608 (<http://www.TheMage.com>) if you're in the area!

Technobabble

Well, the next installment of the CHARGen is on the boards. The Nebuleon CHARGen is in the planning process and things we plan to have includes the character generator, a ship building utility, an armor building utility and an A.I. character builder. First on the list is the character generator though, then the A.I. builder.

The website broke 6000 unique visitors in October and we hope to make this a trend by exchanging links, building awareness and posting on RPG boards.

We have had a number of Retailers sign up for the locator so please remember to check if there is a local retailer that you can pick our products up from (http://www.hinterwelt.com/Locator_Page.htm). If your local retailer is not on our locator then let us know at info@hinterwelt.com so we can contact them and see if they are interested.

That's all for now. More updates in December, assuming your humble editor can focus through the fa-la-la's (Bah, Humbug!).
