

# Another Man's Treasure

A Guide To Shadazar

# Another Man's Treasure

Another Man's Treasure is the first supplement to the Tales Of Gaea Fantasy Role-Playing Game. It takes the reader through the operation of the largest city on Narheim where what you want is just a matter of how much money you have.

Another Man's Treasure contains more than a module but what we like to call a scenario. The scenario gives the GM AND the Player everything they need to run adventures in a setting. This supplement contains new classes, skills, maps, locations, beasts, foes and setting characters along with a full adventure.
