BACK IN THE CORP AGAIN™

Back in the Corps Again is HinterWelt's first supplement for the Nebuleon Science Fiction Role-Playing Game. It details the Andromedaen people, their government and the largest corporate armed force in known space.

Back in the Corps Again contains more than a module but what we like to call a scenario. The scenario gives the GM AND the Player everything they need to run and play adventures in a setting. This supplement contains new classes, skills, maps, locations, equipment, psi disciplines, foes and setting characters along with a full adventure. It is an expansion of the Nebuleon Core rules.
