

## WELCOME

Welcome to the February edition of the HinterWelt Enterprises newsletter! It's been a cold, hard, Minnesota winter for those of us at HWE, but that hasn't stopped us from working on more games and supplements.

Remember to visit our site for the latest update, downloads and tools!

## NEWS

Back in the Corps Again, the first supplement for our Sci-Fi RPG Nebuleon, is in stores now. This 80 page soft cover book expands upon the Iridium System, adding new classes (Marine), weapons, equipment, and foes (genetic constructs) to the basic core rules. The setting: an Andromedaen research vessel has sent out a distress call, followed by abrupt silence. It's up to your team to figure out what happened, rescue (or execute?) any survivors, and get out to enjoy your leave. It's just another day in the Andromedaen Marine Corps!

Enjoy these previews of the covers for Terra Occidentalis (a supplement for Roma Imperious) and Free Traders League (a supplement for Nebuleon).

After several 18 hour days and various threats from the editing staff, our chief writer is nearing completion on Roma Imperious, our next Alternate History RPG core rule book. Right now the Roman, African, and Viking settings are complete, as well as magic, classes, equipment, and foes. All that remains to be written is the Asian setting of the Jade Empire and character templates. After the writing is

complete, a month is needed for editing and layout, followed by another month at the

printers. So, expect to see this new book out in May, in hard cover, at 320 pages and a MSRP of \$40.

The HinterWelt staff (minus Sheba, the team mascot and morale officer) will be hitting the road in March to attend the GAMA Trade Show, or GTS. This show is designed to exhibit new product from manufacturers to retailers. Located in Las Vegas, NV at the Orleans hotel, this week long event is a must-go for all serious gaming manufacturers. HinterWelt will be located in booth 313 in the Impressions endcap. Retailers are encouraged to stop by our booth and fill out a survey; you could win a MILLION dollars! Details at our booth....

## CAMPAIGN

We're still having a great time at Village Games in Anoka, MN on Saturday nights, running the free demo adventure for Tales of Gaea. A log of the group's activities can be found on our website in the Forums.

## TECHNOBABLE

Updates proceed with the CHARGen. We have done a few bug fixes but mostly have been working with expanding functionality. The biggest upgrade is in the armor section and deals with magical clothing and armor effects. After creating your character go to Configure Armor and add either magical effect or clothing. It will apply to all areas on the character. Back in the Modify Page click on the Modify link and enter the total Armor Factor (number of Fortitude Points) that the clothing or effect protects for in the AF Modifier text box and submit. All areas of armor will be increased by that amount. As always, let us know if you have any problems by posting on the forums (use your same logon and password as the CHARGen) or email us at [info@hinterwelt.com](mailto:info@hinterwelt.com).  
<http://www.hinterwelt.com/chargen/>

We have updated the HinterWelt site with a new banner and some Tales of Gaea content. There is a new PDF with the Elven History on Narheim where you can learn about the forces that have formed the modern elves and elven state on Narheim. Check it out here:  
<http://www.hinterwelt.com/TOG/EH-Ref.html>

Also, the Narien map is also available online. This is our maps that were printed in the Tales of Gaea Core rules but now that are clickable. You are able to click on a area of the map to zoom in for close up of the duchy. Here is the link:

That's all for this month. Look for our review of GTS next issue, complete with pictures!
